#GenerationRestoration Drawing Contest (WED 2021)

EU Mobility Week (2021)

On 2021 World Environment Day, the UNDP, EU and MENR teamed up to launch a #GenerationRestoration-titled drawing contest. The contest aimed to help raise awareness about the importance of environmental protection features all children aged 7-12 residing in Azerbaijan and are keen to make their own artistic contribution to the issue.

To raise awareness on eco-friendly solutions in the country, the project team held the European Mobility Week in the Absheron National Park.

All artworks have been reviewed by a Selection Committee set up for this purpose. A total of 50 candidates have been selected on the basis of originality, technical skill, and the emergence of a personal vision for environmental protection.

Within the event, the project installed a covered bicycle parking for a total of 20 labeled bicycles, which were purchased and delivered to the Absheron National Park. As a part of the initiative, helmets and bike locks were also granted to the part for the sake of safety.

DIY (Do It Yourself) (2022)

UNDP in collaboration with EU and MENR launched a DIY (Do It Yourself) contest for those interested in upcycling products into new goods for their further utilization. The contest attracted more than 150 people of all ages and capabilities who are interested in finding creative solutions for the waste materials which are normally thrown away.

UNDP in collaboration with EU and MENR organized the School Symposium on Climate Change Mitigation and Adaptation measures. The symposium provided a platform for high school students to showcase their research projects on climate change mitigation and adaptation measures.

The Project team held an open-air fair in the park of Heydar Aliyev Center. As part of the event, as many as 30 participants were selected as the most suitable for prizes based on originality, overall visual impression, quality and technical skill and were awarded gifts.

At the symposium, representatives from the UNDP, EU and MENR observed the projects of the participants of “The Future Starts Here”-themed School Contest, which attracted approximately one hundred schoolchildren from 13 schools. The high-school children presented feasible projects to address the challenges of climate change.
